### Church Security

**The doors have been left unlocked and unsupervised during programs at the church.**

During the past month, we have had unexpected visitors enter the church looking for food and shelter from the cold.

We are in the process of creating a community services directory, so we can help those in need when they come to our doors.

However this raises a security issue. For everyone's safety and for the security of the church, we are asking each program to keep all doors locked unless they are supervised.

It may be inconvenient for latecomers to programs, however the safety of our programme participants takes priority.

Thank you for your co-operation!
