*A message from the Moderator of Presbytery, Rev
Peter Bush*

Greetings:

In my capacity as Moderator of Presbytery -- I am looking for people to join a committee to help the congregations in the Presbytery reduce their environmental footprint.

The task would be two-fold.

First, to create a list of things that congregations could do to reduce their footprint or to mitigate their footprint. This would not be so much specific to specific congregations - -although that may arise -- but more a checklist of areas to think about and work on. The committee may decide that it wishes to visit congregations to see buildings - -although much of the work could be done on line.

Second, to create a list of businesses and government agencies who could assist congregations in doing the work. So included would be groups that could do energy assessments, groups who provide grants, companies who do the work. Included would be asking businesses if they offer group rates for their services.

This will be a working committee with committee members being assigned tasks/collecting information.

If you know of people who would be interested in this please have them contact me -- the hope is the work will be done by June 2021 with a report going to the Presbytery at that time.

Thank you.

Peter
